

Number puzzle

Follow the dotted lines and find out the color of each number.

The puzzle consists of a grid of numbers and colored squares. The numbers are arranged in two rows: the top row contains 1, 2, 3, 4, 5 and the bottom row contains 6, 7, 8. To the left of the numbers are five colored squares: yellow, orange, blue, light green, and pink. Below the numbers are five colored squares: brown, dark blue, and grey. Dotted lines connect the numbers to the colored squares as follows: 1 connects to yellow, 2 connects to orange, 3 connects to blue, 4 connects to light green, 5 connects to pink, 6 connects to orange, 7 connects to blue, 8 connects to light green.

1	2	3	4	5	6	7	8
