

Metric units of mass

Converting Metric Units of Mass (Weight)

mega-	kilo-	hecto-	deca-	Base unit*	deci-	centi-	mili-
tonne**	kilogram	hectogram	deca-gram	gram	deci-gram	centi-gram	milli-gram
							
t	kg	hg	dag	g	dg	cg	mg
1000 kg ili 1 000 000 g	1000 g	100 g	10 g	1 g	10 dg in 1 g	100 cg in 1 g	1000 mg in 1 g

* The SI base unit of mass is "kilogram" but names and symbols for decimal multiples and submultiples of the unit of mass are formed by attaching prefix names to the unit name "gram".

** 1 tonne (UK) or metric ton (US) = 1 megagram = 10^6 grams
