

The Way to School

There are four children – Amelia, Ben, Kate, and Darren – who are in first, second, third, or fourth grade. They get to school in different ways: by bus, by bicycle, on foot, or by car. Can you figure out which grade each child is in and how they get to school?

1. The fourth grader is a boy who does not ride a bicycle to school.
2. Kate is the youngest child and walks to school.
3. Darren is one grade ahead of Kate.
4. The child in third grade is driven to school by car.
5. Ben goes to school by bus.

		Grade				Way to School			
		First Grade	Second Grade	Third Grade	Fourth Grade	Bus	Bicycle	Walk	Car
Name	Amelia								
	Ben								
	Kate								
	Darren								
Way to School	Bus								
	Bicycle								
	Walk								
	Car								

Tips:

- Use "X" to eliminate possibilities.
- Use "O" to mark discoveries.
- Read each clue carefully.
- Read the clues more than once.
- Think about how the clues connect.
- Work step by step to find the answer.

	Grade	Way to School
