

Video Games and Sports

Four friends – Alex, Wayne, Isaac, and Manuel – spend all day playing their favorite video games (Fortnite, Roblox, League of Legends, and Minecraft). When their parents became concerned and took away their computers, each boy chose a sport to show that he could be active too (soccer, basketball, tennis, and wrestling).

Can you figure out which game each boy likes and which sport he chose?

- Alex does not play Fortnite, and he does not like basketball.
- Wayne does not play Minecraft, and he likes neither tennis nor wrestling.
- The boy who plays Fortnite chose a sport that does not use a ball.
- The boy who plays Minecraft also plays soccer.
- Isaac did not choose wrestling, and he does not play League of Legends.
- Whoever plays tennis does not play Roblox.
