

Roses

Four gardeners are bringing their roses to a flower show. The roses come in four colors: red, yellow, green, and blue. Each gardener has two roses.

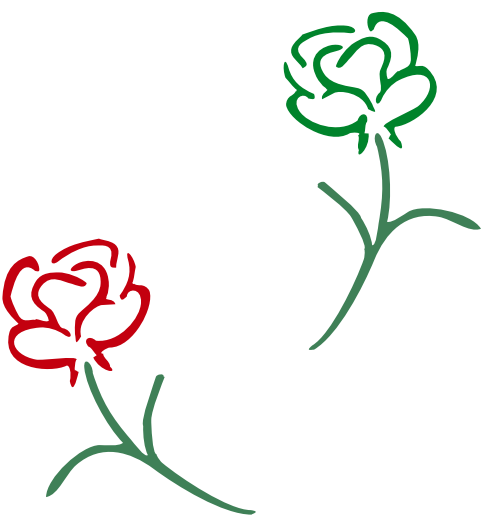

None of the gardeners has a rose that matches the color of their last name.

No gardener has two roses of the same color, and no two gardeners have the same pair of rose colors.

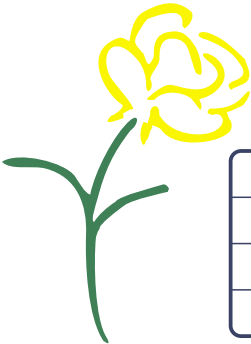

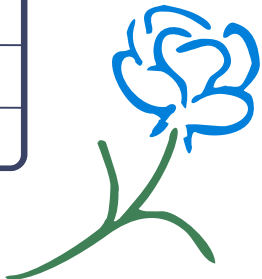

Can you figure out the colors of each gardener's roses?

Clues:

- 1. Mr. Green has a yellow rose.
- 2. Mr. Yellow does not have a red rose.

		First Rose				Second Rose			
		Yellow	Red	Blue	Green	Yellow	Red	Blue	Green
Name	Mr. Green								
	Mr. Yellow								
	Mr. Red								
	Mr. Blue								
Second Rose	Yellow								
	Red								
	Blue								
	Green								

Tips:

- Use "X" to eliminate possibilities.
- Use "O" to mark discoveries.
- Read each clue carefully.
- Read the clues more than once.
- Think about how the clues connect.
- Work step by step to find the answer.

	First Rose	Second Rose
Mr. Green
