

The Family Trip

The Miller, Weber, and Taylor families are neighbors and live in the same apartment building. Last weekend, they decided to go on a trip, but each family chose a different destination: a picnic by the river, a hotel by the lake, or a visit to the hot springs. Can you figure out where each family went and how many family members they have (3, 4, or 5)?

1. The family with the smallest number of members did not go to the lake.
2. The Miller family has fewer than 5 members and did not go to the hot springs.
3. The Weber family has 3 members and did not go to the hot springs.

		Family Members			Destination		
		3 members	4 members	5 members	river	the lake	hot springs
Last name	Miller						
	Taylor						
	Weber						
Destination	river						
	the lake						
	hot springs						

Tips:

- Use "X" to eliminate possibilities.
- Use "O" to mark discoveries.
- Read each clue carefully.
- Read the clues more than once.
- Think about how the clues connect.
- Work step by step to find the answer.

	Family Members	Destination
Miller
