

Dresses

Four friends – Lucy, Sarah, Rosie, and Inga – bought dresses for the school party. Each girl bought two dresses, but none of them bought two dresses of the same color. Can you figure out which two dress colors each girl bought?

- Lucy does not have a white dress.
- Sarah has a blue dress, but she does not have a red dress.
- One girl has the yellow and white dresses, and another girl has the blue and yellow dresses, but no one has both the red and yellow dresses.
- Rosie has the white dress.
- Inga has the yellow dress, but she does not have a blue dress.

		red	blue	white	yellow	red	blue	white	yellow
Name	Lucy								
	Sarah								
	Rosie								
	Inga								
Dress Color	red								
	blue								
	white								
	yellow								

Tips:

- Use "X" to eliminate possibilities.
- Use "O" to mark discoveries.
- Read each clue carefully.
- Read the clues more than once.
- Think about how the clues connect.
- Work step by step to find the answer.
