

What are the Seven Dwarfs Called?

Many years after her adventure in the forest, Snow White found the old photograph of the seven dwarfs and showed it to her children.

“Look, children,” she said. “The one without a beard is Dopey. The one pointing with his finger is Doc. The one lying in the foreground is Sleepy, and the one standing in the middle is Grumpy. In the background are Happy, who has shaggy eyebrows, and Sneezzy. So who is left? Bashful! Can you children tell me where he is?”
