

Houses

Sofia, Lucas, Una, and Henry all live in different houses.

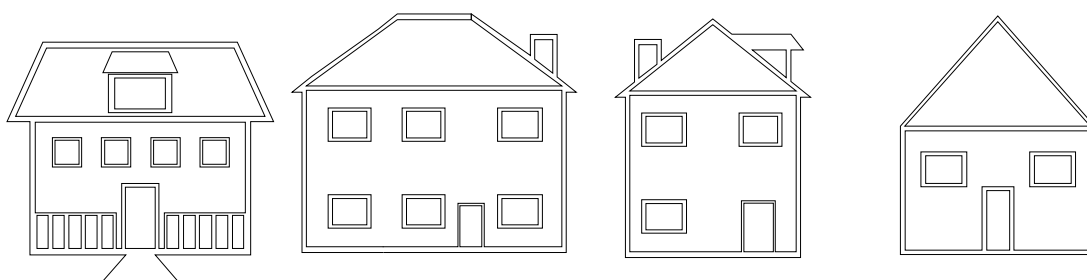

Can you figure out which house belongs to each person and what their jobs are?

1. Lucas's house has more than two windows and is not the widest house.
2. Sofia's house has three more windows than the mail carrier's house.
3. The real estate agent's house has fewer windows than the doctor's house.
4. The mail carrier's house has three windows, and his name is not Henry.
5. Una's house has three more windows than the painter's house.
