

The Race

Five friends competed in a race.

We know that no two runners crossed the finish line at the same time.

Can you figure out the order in which they finished the race?

1. Ruth reached the finish line before Lara.
2. Ronan finished before both Ruth and Vito.
3. Peter finished before Ruth and Vito.
4. Either Ronan finished before Peter, or Lara finished before Peter.
5. Ruth finished before Vito.
6. Vito did not finish last.

Lara	Ruth	Ronan	Vito	Peter
1. 2. 3. 4. 5.	1. 2. 3. 4. 5.	1. 2. 3. 4. 5.	1. 2. 3. 4. 5.	1. 2. 3. 4. 5.

1. Ronan; 2. Peter; 3. Ruth; 4. Vito; 5. Lara
