

Music

Four friends – Thomas, Hannah, Lucas, and Sarah – are all different ages (10, 12, 13, and 15 years old), and each plays a different musical instrument (guitar, violin, keyboard, or drums).

Can you figure out who plays which instrument?

1. Thomas is 3 years older than the child who plays the keyboard.
2. Hannah does not play the violin and is not the youngest child.
3. Lucas is 3 years younger than the child who plays the violin.
4. The 15-year-old child plays the guitar.
5. Sarah is 13 years old and does not play the keyboard.
6. Hannah is older than the child who plays the drums.

Name	Thomas	Hannah	Lucas	Sarah
Age				
Instrument				

Thomas — 15 years old — Guitar; Hannah — 12 years old — Keyboard; Lucas — 10 years old — Drums; Sarah — 13 years old — Violin
