## Multiplying by 10

Fill in the missing numbers.

Fill in the missing numbers.

10 Times Table

| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | ·10 |
|---|---|---|---|---|---|---|---|---|---|---|
| | | | | | | | | | 100 | |

Solve the problems.

$3 \cdot 10 = \boxed{30}$

$7 \cdot 10 = \square$

$9 \cdot 10 = \square$

$5 \cdot 10 = \square$

$8 \cdot 10 = \square$

$4 \cdot 10 = \square$

Calculate, then write the inverse problem!

$1 \cdot 10 = \square \Longrightarrow 10 \cdot 1 = 10$

$6 \cdot 10 = \square \Longrightarrow$ _____

$5 \cdot 10 = \square \Longrightarrow$ _____

$9 \cdot 10 = \square \Longrightarrow$ _____

$2 \cdot 10 = \square \Longrightarrow$ _____

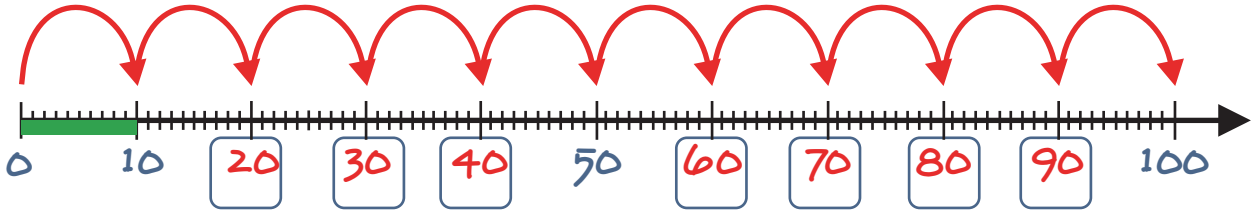

$10 \cdot 10 = \square \Longrightarrow$ _____

## Multiplying by 10

Fill in the missing numbers.

Fill in the missing numbers.

10 Times Table

| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | ·10 |
|---|---|---|---|---|---|---|---|---|---|---|
| 10 | 20 | 30 | 40 | 50 | 60 | 70 | 80 | 90 | 100 | |

Solve the problems.

$3 \cdot 10 = 30$

$7 \cdot 10 = 70$

$9 \cdot 10 = 90$

$5 \cdot 10 = 50$

$8 \cdot 10 = 80$

$4 \cdot 10 = 40$

Calculate, then write the inverse problem!

$1 \cdot 10 = 10 \Longrightarrow 10 \cdot 1 = 10$

$6 \cdot 10 = 60 \Longrightarrow 10 \cdot 6 = 60$

$5 \cdot 10 = 50 \Longrightarrow 10 \cdot 5 = 50$

$9 \cdot 10 = 90 \Longrightarrow 10 \cdot 9 = 90$

$2 \cdot 10 = 20 \Longrightarrow 10 \cdot 2 = 20$

$10 \cdot 10 = 100 \Longrightarrow 10 \cdot 10 = 100$
